

5th International Webinar on Cancer Science and Therapy

Theme: A Revolutionary Leap: Transforming Cancer Research and Therapy

May 18-19, 2026

GMT +8
(Kuala Lumpur, Malaysia)

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges.

Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide.

About Webinar

The **5th International Webinar on Cancer Science and Therapy** is Organized by Scientex conferences during May 18-19, 2026 focused on the theme “A Revolutionary Leap: Transforming Cancer Research and Therapy”. Attendees had the opportunity to receive an e-certificate of attendance. Come and join this intimate platform to create networking with 50+ cancer experts.

Our primary goal is to showcase the latest discoveries in cancer research and therapies to share their knowledge and experiences with the global cancer community and contribute to advancing cancer control, and recommend innovative treatment plans. [\(click here for more\)](#)

5th International Webinar on Cancer Science and Therapy

May 18-19, 2026 | GMT+8 (Kuala Lumpur, Malaysia)

SPEAKER PRESENTATIONS

Title: Tertiary Prevention and Treatment for Reducing Leukemia Relapse

Su Yon Jung, Jonsson Comprehensive Cancer Center, USA

Title: Circulating tumor DNA as a transformative tool for early detection and management of HER2-positive breast cancer

Sayed Abulqasem Kazemi, I.M Sechenov First Moscow State Medical University, Afghanistan

Title: Suffering-based medicine and artificial intelligence: A hermeneutic alliance to deepen patient understanding in clinical practice

Auro Del Giglio, Faculdade de Medicina da Fundação ABC, Brazil

Title: Revolutionizing esophageal cancer care: Integrating artificial intelligence with modern diagnostic strategies for early detection

Michael Adeniyi, Georgia Southern University, USA

Title: Temporal trend study of the mortality rate from prostate cancer (2011 to 2020), by age group, in Brazil

Auana Coppieters, FTC university center, Brazil

Title: Navitoclax, a Bcl-2/xL Inhibitor, and YM155, a Survivin Inhibitor, in Combination with Carboplatin, Effectively Inhibit Ovarian Cancer Tumor Growth

Hilary A. Kenny, University of Chicago, USA

Title: One size fits all - paradigm shift of functional food development in personalized nutrition for cancer prevention

Dunyaporn Trachootham, Mahidol University, Thailand
